267 BALD EAGLE DRIVE

Pittsboro, NC

While many luxury homes in the Triangle are constrained by tight lot sizes, 267 Bald Eagle Drive stands apart with 5.67 acres of true privacy and purposeful outdoor living. Designed for those who love adventure, the property includes a dedicated on site boat/RV barn, with the convenience of being just five minutes from Jordan Lake. This eliminates the need for off site storage that many neighborhoods' restrictive HOA rules would prohibit. Nestled in a small community with large lots and thoughtful protective covenants, this tract ensures natural privacy and quiet, along with night skies. The backyard is an entertainer's dream, featuring a covered porch, open deck, 6-person hot tub, and fire pit, with ample space should a future owner wish to add a pool. For gardeners, the property is nothing short of exceptional. The grounds are beautifully landscaped with seasonal interest and custom lighting and include a fenced garden area with its own potter's shed, creating a perfect environment for growing, cultivating, and unwinding. This picturesque home sits atop a ridgeline among predominantly hardwood trees. Bordered by a seasonal roadside creek, the property offers a serene escape just minutes from downtown Pittsboro and a short drive to major highways with access to Chatham Park, Apex, and Chapel Hill within 10 to 25 minutes. Two of the 5.67 acres are fenced with a three-rail wood fence, and a gated asphalt driveway leads up to spacious cement parking and sidewalk. This custom-built 4,406-sf home boasts 4 bedrooms, 3.5 bathrooms, including the 1,103-sf finished basement with a gym, media, and bonus room alongside 543-sf of unfinished space. The house is complete with a new roof and HVAC systems, and is connected with Spectrum high-speed fiber internet with incredibly fast speeds. Interior highlights include oak hardwood and tile flooring, casement windows, solid wood doors and glass doors. This home showcases a gorgeous formal dining room, a living room with a 2-story natural stone, wood-burning fireplace, and a home office with custom cherry cabinetry and a natural stone, gas log fireplace. The kitchen features custom natural maple cabinets accented with under-cabinet lighting, granite countertops, a high-end Wolf gas range with two ovens and a griddle, and stainless steel appliances. Just off the kitchen, the spacious utility suite has a double-door pantry, housekeeping storage, cabinetry for kitchen and laundry needs, laundry appliances, countertops, a utility sink, and a bathroom. The primary suite has a vaulted ceiling, a glassed-in vaulted ceiling porch, a walk-in closet, and is equipped with a steam shower and a jetted tub. The home's exterior is detailed with cedar shakes and natural stone, which are complemented by low-maintenance Brazilian Ipe hardwood on the rear deck, covered porch off the breakfast room, and the primary suite's enclosed porch.
